

Simone Vincenzi

Curriculum Vitae – August 2016

Department of Ocean Sciences, University of California Santa Cruz and Molecular Ecology and Genetic Analysis Team Southwest Fisheries Science Center, Santa Cruz, CA

Telephone: (+1) 831-420-3936

Email: simon.vincenz@gmail.com

Website: <http://www.simonevincenzi.com>

Google Scholar : <https://scholar.google.com/citations?user=kiV7yTQAAAAJ&hl=it>

Research interests: population ecology, population genetics and genomics, demography, biostatistics, modeling of extreme events.

EB-1A Green Card holder

ACADEMIC TRAINING

2007: Ph.D. in Ecology, University of Parma (Italy). “Compensatory responses and population viability analysis of translocated marble trout populations in Slovenian streams”. Advisor: Prof. Giulio A. De Leo.

2003: BS and MS in Environmental Sciences (combined in a single program), University of Parma (Italy). Thesis on a simulation model to estimate the emissions of pollutants from road traffic. Advisor: Prof. Corrado Rizzoli.

RESEARCH POSITIONS

May 2016-: **Research Scientist**, Department of Ocean Sciences, UCSC and Southwest Fisheries Science Center’s Molecular Ecology and Genetic Analysis Team.

February 2013-April 2016: Marie Curie International Outgoing Fellow, University of California Santa Cruz (UCSC). Affiliated with UCSC’s Department of Applied Mathematics and Statistics, Southwest Fisheries Science Center’s Molecular Ecology and Genetic Analysis team.

August 2011-January 2013: Post-doctoral scholar, Center for Stock Assessment Research (CSTAR), University of California Santa Cruz.

June 2011-January 2013: Senior Fisheries Biologist, MRAG Americas, Capitola, CA, US.

December 2010-May 2011: Research Assistant, Department of Environmental Sciences, University of Parma (Italy).

May-November 2010: Visiting Scientist, University of California Santa Cruz and National Marine and Fisheries Service (NMFS)’s Center for Stock Assessment Research (CSTAR).

May-July 2009: Visiting Scientist, Center for Stock Assessment Research (CSTAR), University of California Santa Cruz.

April 2007-November 2010: Research Scholar, Department of Environmental Sciences, University of Parma (Italy).

HONORS AND AWARDS

2015: Part of the team selected by the Secretary of Commerce to receive the **2016 Group Gold Medal for Scientific and Engineering Achievement**, recognizing the Bering Sea Project as “the most comprehensive integrated ecosystem assessment ever completed, revealing how climate cycles affect the Nation's largest fishery”

2014: Invited presentation at the EURAXESS event “European-Funded Research and North America” (5 speakers invited from a pool of 60 applicants).

2013-15: Marie Curie International Outgoing Fellowship (15% overall success rate, 10% for Italian proposals), more than \$300,000 of total funding.

2010: “Luigi and Francesca Brusarosco Award” to carry out a research project on the rapid evolution of life-history traits in salmonids (3 awards are assigned each year to young ecologists and evolutionary biologists). The research took place from May to November 2010 at the University of California, Santa Cruz.

2004: “Premio Marchetti” for the best oral presentation and paper of a young ecologist at the XIV National Meeting of the Italian Society of Ecology (S.It.E) – “A GIS-based Habitat Suitability Model for commercial yield estimation of *Tapes philippinarum* in a Mediterranean coastal lagoon (Sacca di Goro, Italy)”.

GRANTS

\$350,000. **Marie Curie International Outgoing Fellowship** granted by the European Research Council on rapid evolutionary responses to climate change in natural populations. January 2013-December 2015.

\$8,500. Project financed by the University of Ferrara (Italy) for the development of a habitat suitability model for *Tapes philippinarum* living in coastal lagoons in Region Veneto (Italy). June 2009-December 2009.

\$42,000. Project financed by CORILA for the development and application of correlative species distribution models for *Tapes philippinarum* and for marine phanerogams in the Venice lagoon. February 2009-May 2011.

\$11,000. Project financed by Consorzio Ferrara Ricerche (CFR) for the development of a model of optimal harvesting of *Tapes philippinarum* in North Adriatic lagoons. January-June 2009.

Vincenzi S, Caramori G, Rossi R, De Leo GA (2006) A GIS-based habitat suitability model for commercial yield estimation of *Tapes philippinarum* in a Mediterranean coastal lagoon (Sacca di Goro, Italy). *Ecological Modelling* 193:90–104.

SERVICES

Reviewer for *American Naturalist*, *Ecology Letters*, *Aquaculture*, *Ecology of Freshwater Fish*, *Conservation Biology*, *Journal of Environmental Management*, *Canadian Journal of Fisheries and Aquatic Sciences*, *Journal of Fish Biology*, *Oecologia*, *Hydrobiologia*, *ICES*, and others.

Reviewer for NSF grant proposals in DEB - Population and Community Ecology.

INVITED TALKS AND SEMINARS (recent and selected)

Invited talk at De Leo's lab at the Hopkins Marine Station of Stanford University. *Extinction risk and eco-evolutionary dynamics in a variable environment with increasing frequency of extreme events*. July 2015.

Invited talk at the Wildlife & Conservation Biology Seminar series at UC Berkeley. *Genetic and life-history variation in small populations living in stochastic environments*. October 2014.

Invited talk at EURAXESS event in New York City. *Shaken, burned, drowned, but still there: how species survive catastrophic events in an increasingly extreme world*. March 2014. **Talk is online at** <https://www.youtube.com/watch?v=sp6xW67sC0I>

Invited talk at the 2013 SIAM meeting in San Diego. *Spatial features of density dependence and weather extremes in population models*. July 2013.

Invited talks at the Kittiwake Workshop at NTNU in Trondheim, Norway. First talk: *Food availability, kittiwake life histories and population dynamics in the North Pacific*. Second talk: *Food availability affects onset of reproduction in a long-lived seabird*. March 2013.

Invited talk at Bering Sea Project 2012 Principal Investigator Meeting in Anchorage, Alaska. *Linking patch dynamics, body growth and productivity in the black-legged kittiwake *Rissa tridactyla**. March 2011.

Invited Seminar at the Department of Environmental Science, Policy and Management of the University of California, Berkeley. *Managing and conserving marble trout (*Salmo marmoratus*) in the face of climate change and species invasions: an overarching framework integrating ecology and evolution*. December 2011.

Invited talk at the 2011 American Fisheries Society Annual Symposium, Special Session "Factors Contributing to the Population Resilience of Anadromous and Resident Salmonids". *Selective consequences of catastrophes on body growth rates*. September 2011.

Invited Seminar at the Ecology & Evolutionary Department (EEB) of the University of California, Santa Cruz. *Catastrophes and shaping of life histories*. October 2010.

Invited Seminar at the Hopkins Marine Station of the Stanford University. *Selective consequences of catastrophes on growth rates in a stream-dwelling salmonid*. October 2010.

Invited Seminar at Stanford University, Tuljapurkar's Lab. *Selective consequences of catastrophes on growth rates in a stream-dwelling salmonid*. July 2010.

Invited Seminar at the University of Venice. *Main insights from the 15 years' reintroduction experience of marble trout *Salmo marmoratus**. November 2009.

Plenary lecture at the International Workshop on the Restoration of Fish Populations. *The Marble Trout Conservation Program: main insights from a 15 years' reintroduction experience*. September 2009.

TEACHING AND MENTORING

Graduate courses

2007-2010: “*Ecological Modelling*” (one semester, 30 hours, University of Parma, Master’s degree in Environmental Sciences).

2006-2007: ”*Population Dynamics and Management of Renewable Resources*” (one semester, 70 hours, University of Parma, Master’s degree in Biology and Master’s degree in Environmental Sciences). From 2008 to 2010, I have been a teaching assistant in this course.

Mentoring/tutoring of Graduate students

as co-supervisor of their Master’s

2009: Laura Silva. Analysis of community structure in an IBA (Important Bird Area).

2008: Michele Cordioli. Environmental impact assessment of incinerators.

2006: Elisa Gottardi. Population dynamics of of Roe Deer populations.

as co-supervisor of their PhD

2012-2015: Gianluigi Rossi. Preventing the diffusion of pathogen species in farm networks.

2011-2015: Michele Cordioli. Health risks of waste incinerators.
